

## Social & Behavioral Research: Forms & Consent Templates

This section contains all of the forms and consent templates that apply to investigators from:

- ? Business
- ? Education
- ? Engineering
- ? Humanities & Sciences
- ? Law

\*Please note that when creating a protocol for IRB submission, these investigators need to select the **Non-Medical eProtocol Application category**.

\* Any study that involves the collection and analyses of human biological specimens and/or Protected Health Information (PHI) will need to be submitted on the Medical eProtocol application.

For questions, please contact the [Non-Medical IRB Panel Staff](#) [1]. If you are having trouble accessing these forms, please ask IRB Education ([email](#) [2] or call 650-724-7141) to have them sent to you.

The consent/assent form should be in a language that is understandable to someone without a scientific background. Please use the [Microsoft Readability Statistics tool](#) [3] as needed when writing your consent form.
