Education and training are provided to all individuals involved with the Human Research Protection Program (HRPP). The [HRPP Policy Manual](#) [1] specifies education requirements for IRB members, IRB staff and research personnel.

eProtocol Training

Click [HERE](#) [2] to register for an upcoming **eProtocol Training Session**.

eProtocol training sessions ([slides](#) [3]), for new and less experienced users, are provided by the Research Compliance Office.

Please review the following **videos** for information on:

For Community Research Partners:

[CIRTification Online](#) [23] is a free, web-based human research protections training program tailored specifically to the needs and roles of community research partners. While Stanford is not a participating institution, this training is available to anyone in the community. Learners first [create an account](#) [24] and complete the web-based training at their own pace. This training does not substitute for the Stanford CITI training requirements.
