Training

Education and training are provided to all individuals involved with the Human Research Protection Program (HRPP). The HRPP Policy Manual [1] specifies education requirements for IRB members, IRB staff and research personnel.

**eProtocol Training**

Click HERE [2] to register for an upcoming eProtocol Training Session.

eProtocol training sessions (slides [3]), for new and less experienced users, are provided by the Research Compliance Office.

Please review the following videos for information on:

- Getting Started - What is Needed and eProtocol Basics (5 minutes) [4]
- How to Submit a New IRB Application (16 minutes) [5]
- How to Submit a Continuing Review or Modification in eProtocol (4 minutes) [6]
- IRB Protocol Review Process and General Tips (5 minutes) [7]

Stanford provides access to required training through the interactive online Collaborative Institutional Training Initiative (CITI [8]) Course: The Protection of Human Research Subjects. (more information [9])

**IRB Introduction and Process Overview**

- Who/What is the IRB? (3 minutes) [10]
- An Introduction to the Stanford IRB (Social/Behavioral Research Focus) (37 minutes) [11]

**IRB Member Education**

View past training presentations, materials and handouts [12] from previous panel meetings.

**Other Resources**

- Presentations [13] provided to the research community and IRB
- FAQs [14]
- eProtocol FAQs [15]
- Research Privacy Overview [16] (PowerPoint presentation)
- Spectrum [17] - Stanford/Packard Center for Translational Research in Medicine
- CCTO [18] - Stanford Cancer Clinical Trials Office

**For Community Research Partners:**
CIRTification Online [19] is a free, web-based human research protections training program tailored specifically to the needs and roles of community research partners. While Stanford is not a participating institution, this training is available to anyone in the community. Learners first create an account [20] and complete the web-based training at their own pace. This training does not substitute for the Stanford CITI training requirements.

Additional training:

As well as the human subjects training for researchers required by the IRB, there might be training required by other groups, programs, or departments. Researchers should see Training [21] on the Dean of Research (DoR) [22] website, or refer to their department to identify needed education.

Questions?

Contact IRB Education [23] or call (650) 724-7141
