## What's New

- Launching November 3, 2018: eProtocol will be rolling out a new user interface (UI). The new UI has a different appearance, but the content within the protocol template has not changed. Take a look and see specific instructions [here](#) [1]! Want a video? Click on the Play button below:
  - The [APLAC Guidelines](#) [2] are revised every three years. Have you read the most recent versions?
  - The APLAC is pleased to announce that we have recently streamlined and updated our eProtocol *Renewal Form*. **What Has Changed: It is now titled *Continuing Review form*.** This form will be submitted for the renewal of your APLAC protocol OR the required continuing review for your APLAC protocol using USDA covered species and/or funded by the Department of Defense (DoD). **What Stays the Same:** The personnel listed in the *Personnel* section of the protocol as the "Top Four" will continue to receive email reminders whenever this form is due. You may still revise the protocol as part of this process. We hope that this improved form will provide a more streamlined submission process for all researchers.
