## Training Required

Please see training guidance for each research area below. If you need further help at any time, contact the [Research Compliance staff](#) [1].

### Human Subjects Research

- CITI: All investigators must take the [Collaborative IRB Training Initiative online training](#) [2].
- HIPAA: Investigators using Protected Health Information (PHI) should also take [Health Insurance Portability and Accountability Act \(HIPAA\) training](#) [3].

### Animal Subjects Research

- All users who will be handling animals should take the [Animal Care and Use Training Seminar](#) [4] offered through the VSC.
- There are additional [training requirements](#) [5] for sheep & non-human primate users.
- Other training opportunities are available through the [Veterinary Service Center \(VSC\)](#) [6].

### Stem Cells Research

No special training is required, per [President Obama's Executive Order](#) [7] on March 9, 2009.

### Biohazards Research

Environmental Health and Safety (EH&S) is responsible for Administrative Panel on Biosafety (APB). Please see the [APB website](#) [8] for training information.
