Training Required

Please see training guidance for each research area below. If you need further help at any time, contact the Research Compliance staff [1].

**Human Subjects Research**

- CITI: All investigators must take the [Collaborative IRB Training Initiative online training](https://researchcompliance.stanford.edu/panels/hs/forms/training/citi) [2].
- HIPAA: Investigators using Protected Health Information (PHI) should also take [Health Insurance Portability and Accountability Act (HIPAA) training](http://hipaa.stanford.edu/) [3].

**Animal Subjects Research**

- All users who will be handling animals should take the [Animal Care and Use Training Seminar](http://med.stanford.edu/vsc/training.html) [4] offered through the VSC.
- There are additional [training requirements](http://med.stanford.edu/vsc/training/what-kind-of-training-do-i-need-.html) [5] for sheep & non-human primate users.
- Other training opportunities are available through the [Veterinary Service Center (VSC)](http://med.stanford.edu/vsc.html) [6].

**Stem Cells Research**

No special training is required, per [President Obama’s Executive Order](http://ora.stanford.edu/hesc/) [7] on March 9, 2009.

**Biohazards Research**

Environmental Health and Safety (EH&S) is responsible for Administrative Panel on Biosafety (APB). Please see the [APB website](http://www.stanford.edu/dept/EHS/prod/researchlab/bio/practical.html#training) [8] for training information.
